

What else can be saved on my USB?

Open architecture USB, create and save your:

- Emergency Medical Card
- Medical Journal
- Medical Images (x-ray, CT scan, etc.)
- Immunizations
- Lab Reports
- Health Care Directives (Living Will, Power of Attorney forms)
- Electronic Medical Records (request from healthcare provider)

When Seconds Count...

Add an Engraved Acrylic Plate

In an emergency, should you become confused or unable to communicate, your medical alert USB product provides medical personnel with all of the details of your existing medical condition.

But...when time is most critical, can you depend on computer access?

The engraved acrylic plate alerts emergency responders to your most critical information at a glance.

- Assist first responders to quickly and efficiently treat you in an emergency.
- Stores conveniently along with your USB in the back pocket of your Elite medical alert bracelet.
- Order at: www.universalmedicaldata.com

Using Your Medical Alert USB

MEDICAL IDs CAN SAVE YOUR LIFE.

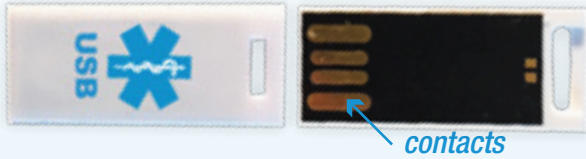

www.universalmedicaldata.com • 1-800-319-0199

USB190605

Inserting your USB device

Compatible with any standard USB port

1. Locate the USB port on your computer

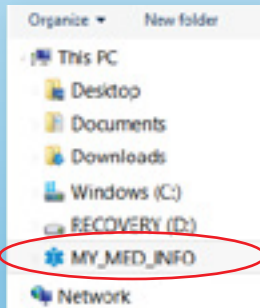

2. Insert the USB device, contacts should face the contact support tab.

3. The "Star of Life" icon  should appear on your computer.

If your USB doesn't operate/initialize, it may have been inserted incorrectly*.

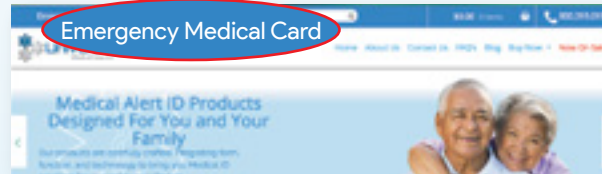

*Due to variations in computers, it is possible that your USB device has been inserted upside down.

How do I create and save my Emergency Medical Card?

START HERE: www.universalmedicaldata.com

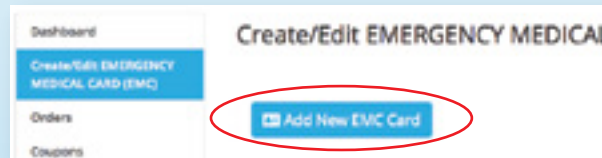

1. Select "EMERGENCY MEDICAL CARD"

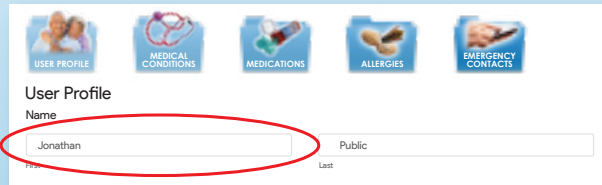

2. Select "REGISTER NOW" and complete registration

3. Select "Add New EMC Card" to create card

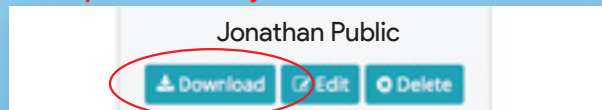

4. Complete your Emergency Medical Information

5. Select "Next" to complete the next section OR "Save" when completed

6. When finished select "Download" to print or save an updated PDF to your device

7. This is your Emergency Medical Card PDF. It can be printed out to carry with you and/or saved to your USB.

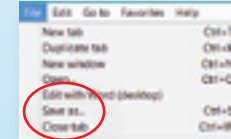

8. Insert the Medical Alert USB into your computer

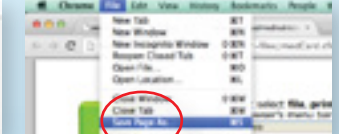

NOTE: Your screen images may differ depending on your browser and computer settings

9. From the browser tool bar (upper left), select: File>Save As (Alternatively, you may be able to right mouse click on the PDF to locate the SAVE AS or PRINT command)

PC (Internet Explorer)

Mac (Chrome)

OR from the tool bar icon (bottom right), select disk icon

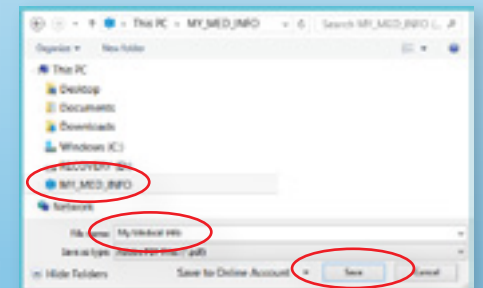

*print options are also available from either tool bar

10. Select the blue Star of Life Medical Alert icon "MY_MED_INFO" from the directory on the left side of the "Save As" screen

11. Name your file

12. Select "Save"

Once completed, you are now registered to update and save your medical information file.

Return as needed to: universalmedicaldata.com and LOG IN
