Sizing Your Sport, Sport Slim, UltraSlim, UltraSlim Designer or EpicBand Duo Medical Bracelet

Step 1

Lift the locking lever and press the buttons on the sides of the clasp to open. Turn the bracelet inside out.

Step 2

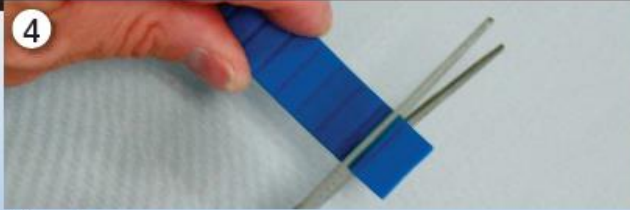

Using a small screwdriver, pry the toothed clamp on the end opposite the medical alert emblem upward to open.

Step 3

Remove the silicone strap by pulling outward.

Same Procedure - All Bracelets

Step 4
Cut the silicone strap at the scored mark (if available) a small amount each time until it is properly sized. Do NOT cut from the side with the medical alert emblem.

Step 5
Insert the silicone strap into the clamp and press down firmly on the toothed clamp to secure. Caution: Re-inserting the strap too far into the clamp may prohibit it from securely locking in place.
